

WITH ELITE™ SERIES VEHICLES, THE BENEFITS GO BEYOND YOUR COST OF OPERATION.

A LIGHTER FLEET AND HEALTHIER TURF

With batteries half the size and a fraction of the weight of lead acid, ELITE Series vehicles weigh hundreds of pounds less than other fleet vehicles. That takes a big load off of your turf, protecting one of your most valuable assets.

ECO-FRIENDLY TECHNOLOGY

Driven by a zero-emissions, greener battery technology, ELITE Series vehicles protect the Earth by using less energy. Since our lithium batteries last longer, they spend more time efficiently driving your fleet and less time in the recycling process.

85% LIGHTER THAN LEAD ACID BATTERIES

ELITE™ LITHIUM

The new E-Z-GO® ELITE™ Series, activated by Samsung® SDI, is a giant step forward when it comes to high-efficiency and zero-maintenance battery power. By pairing this technology with an unprecedented five-year, unlimited-amp-hour warranty, ELITE Series vehicles give you the lowest operating costs the industry has ever seen.

COST-SAVING EFFICIENCY

ZERO-MAINTENANCE BATTERIES

CONSISTENT PERFORMANCE

ELITE™

LITHIUM POWER— ENERGISE YOUR SAVINGS.

ELITE™ Series vehicles offer savings that go on and on. From a better warranty and lower energy bills to increased uptime and decreased maintenance costs, the ELITE Series saves you money at every turn.

TECHNOLOGY THAT'S PROVEN

ELITE Series vehicles utilize Samsung lithium batteries, which are controlled by an advanced Battery Management System that monitors efficiency, temperature, state of charge and the health of the batteries. These batteries have been used to safely and reliably power electric cars, e-scooters, power tools and more.

COST-SAVING EFFICIENCY

ELITE Series vehicles are powered by Samsung® lithium cells loaded into a single battery pack. By tapping into this cutting-edge technology, they use less energy and require less out-of-wall power to charge than leading lead acid competitors. They also charge in half the time. That means you can dramatically cut energy costs and enjoy the extra revenue that comes from all-day uptime.

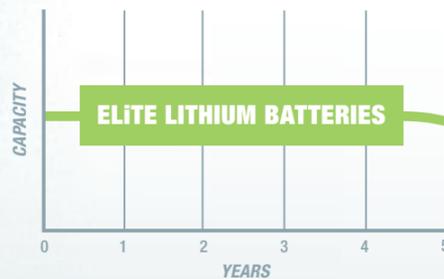

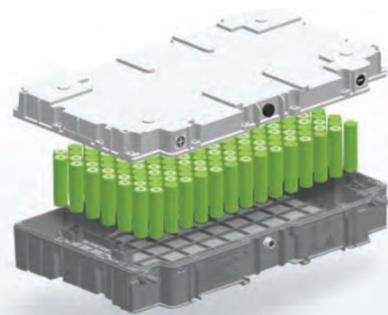

CONSISTENT PERFORMANCE

For many courses, the most noticeable difference of lithium technology is a reliable power source that doesn't fade over time. Whether it's a new vehicle or a five-year-old vehicle, the ELITE Series will give your golfers all the acceleration and hill-climbing power they could want.

UNPRECEDENTED 5-YEAR WARRANTY

We believe in the reliable and enduring performance of ELITE Series vehicles so much that every model comes with a five-year, unlimited-amp-hour warranty. By providing this coverage, you can eliminate costly out-of-warranty repairs.

ZERO-MAINTENANCE BATTERIES

Samsung SDI lithium batteries don't require the labour involved with watering, terminal post checkups and cleaning like lead acid batteries. Do the math, and you'll be surprised how much maintenance time you could save.
